

## The only wireless presenter and mouse that stores and charges inside your laptop.

MoGo Presenter Mouse X54™ is a combined wireless presenter and mouse that stores and charges inside your laptop's ExpressCard/54 slot – a “must have” for every laptop. The sleek design also makes it ideal for business travelers. With the push of a button, it becomes a presenter.

### Features

- Award-winning design with integrated kickstand which flips out to comfortably position the mouse
- Convenient, in-laptop storage frees users from the fuss of clumsy devices
- Charging your MoGo Presenter Mouse X54™ inside your laptop means freedom from buying batteries and saves the environment
- Embedded *Bluetooth*® wireless functionality allows control of presentations with 30 feet of freedom
- Same functionality as conventional laser wireless mice – scroll, right click and left click
- One-touch switching between mouse and presenter modes
- Presenter functions include laser pointer, slide changer and start/escape button

## Presenter Mode

## Mouse Mode

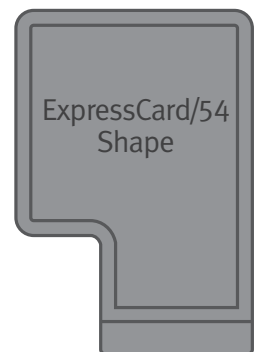

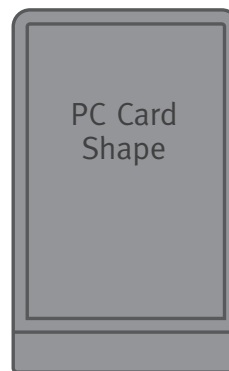

In presenter mode, MoGo Presenter Mouse X54™ gives you the power to deftly advance and reverse slide presentations from the palm of your hand. And with its built-in LED pointer, you can draw attention to the parts of the presentation requiring special emphasis.

Sleek and comfortable, MoGo Presenter Mouse X54™ allows the same functionality as conventional laser wireless mice – scroll, right click, left click – but without the cumbersome design that makes other mice difficult to take on the road. MoGo Presenter Mouse X54™ is built with an easy on/off switch and a handy kickstand for ease-of-use.

### \*Which slot do I have – PC Card or ExpressCard?

If you don't know which slot type you have in your laptop, please take out the filler plate on the side of your laptop to reference the shapes at right. Or if you have removed your filler plate, please check your laptop's user manual.

If your current laptop has a PC Card slot, please check out our MoGo Mouse BT, specifically designed for this application.
